Software Engineer

Software Developer with 4 years of experience, expertised in frontend and backend using React and TypeScript. Developed a web application and e-commerce projects, focusing on creating interactive and efficient user interfaces. I am passionate about learning new technologies and collaborating with diverse teams to deliver impactful solutions that enhance user experiences. Excited to grow and make a real impact in a fast-paced setting.

Experience

PwC - New York, New York 09/2022 - 11/18/2024

- *Software Engineer* - Worked on the client web application in both frontend and backend using React.js, Typescript and Node.js.
 - Worked closely with the UI/UX and QA team in agile product management cycle.
 - Built user guide documents of application and features and enhanced it as app grows.
 - Used React.js and libraries such as Redux toolkit for internal tool applications.
 - Made React components reusable within our application to improve app scalability.
 - Used Node.js to manage objects following Object Oriented Programming approach.
 - Create DB schema and manage Object class actions and queries for database.

CMYK+WHITE, Inc. - New York, New York 10/2019 - 09/2022

- *Front End Developer* - Digital Agency with multiple e-commerce clients in beauty / cosmetic fields. Used React.js (Javascript) and Shopify (Liquid) for work.
 - Worked on the theme template using Liquid Shopify resources and api.
 - Built custom functions for cart, product pages and etc.
 - Managed theme template versions, users and products from Shopify admin panel.
 - Worked closely with the UI/UX and product teams to enhance the product/web.
 - Joined the meeting with the actual client for the new product/web updates.
 - Ran multiple web accessibility (ADA & WCAG Compliance) scan to maintain the high score.

Education

Queens College of The City University of New York - New York
